

United States Patent
5,626,849

Granted: May 6, 1997

*Inventors: Carl W. Hastings, Glencoe, Missouri
David J. Barnes, St. Louis, Missouri*

Assignee: Reliv International, Inc., Chesterfield, Missouri

**Weight Loss Composition for Burning
And Reducing Synthesis of Fats**

FIELD OF INVENTION

This invention relates to a composition that supplies chromium, L-carnitine, gamma-linolenic acid, (-) hydroxycitric acid, choline, inositol, antioxidants and herbs to the human body. The composition of this invention can be used as a dietary supplement to help facilitate weight loss. The composition can be prepared as a beverage and delivered enterally.

The Commissioner of Patents and Trademarks

Has received an application for a patent for a new and useful invention. The title and description of the invention are enclosed. The requirements of law have been complied with, and it has been determined that a patent on the invention shall be granted under the law.

Therefore, this

United States Patent

Grants to the person(s) having title to this patent the right to exclude others from making, using, offering for sale, or selling the invention throughout the United States of America or importing the invention into the United States of America for the term set forth below, subject to the payment of maintenance fees as provided by law.
